NEWS FROM THE FRONT

24 March 2020

Dear fellow Warriors,

Below is an open letter to Vice President Pence. Yesterday it was emailed inside the Vice President office. Your support is needed.

This is a small issue with monumental potential adverse impact in the near future. Monumental because WORDS MATTER!

You are free to share as you desire - it is vital knowledge all should have.

You are free to submit it as a letter to the editor in your local paper or write it in your own words and submit. It is that important.

Should you desire a copy of this letter, email us at CO@ViDoLAmerica.org

Here are a couple of links, we fell you should be aware of:

"Novel Coronavirus Infects the Body Politic" as seen in the [Christian News Journal](#)

ViDoL's Advisory Board member James Robbins wrote yesterday in USA Today the following piece, which demonstrates some chilling evidence of Nancy Pelosi's willingness to practice, "Never let a serious crisis go to waste." [Democrats try to hijack Coronavirus stimulus for liberal Christmas in March](#)

Make no mistake about it. Once the intentionally inflicted panic calms, the left will attack trump as the sole cause of the virus, the crash of our economy, and the millions they forced out of the workplace. However, this will be our chance to take back our country. But we do not want to give them the narrative.

WE MUST PUT THIS HORSE BACK IN THE BARN!

**There is a sickness in the land far worse than the
Wuhan-Coronavirus**

23 March 2020

Dear Vice President Pence,

It is imperative to discontinue using the name Coronavirus when discussing COVID-19!

Human Coronavirus was first isolated in 1960. Initially, there were four primary groups, 229E, NL63, OC43, and HKU1. It produces symptoms such as the common cold or minor flu. You and I and everyone we know has probably had the Coronavirus before, even many times.

More recently, we are seeing what I believe to be recombinant strains of man-made Coronavirus: SARS-CoV, MERS-CoV, and today's SARS-CoV-2, or COVID-19. These all originated from one of the four primary strains, but THEY ARE NOT THE CORONAVIRUS, AND WORDS MATTER!

We must take control of the narrative during this historic crisis, an essential part of our shared fight to take back America and restore Constitutional Fidelity. As I wrote in [Christian News Journal](#) March 10th:

"... Wuhan may have created the virus, but the left in America will empower it far beyond its inherent physical capabilities. America's domestic enemies have weaponized the Wuhan Virus, brilliantly engineering a coordinated campaign of lies, blame, deceit, deception, and false accusations all designed to spread division, fear and panic—like a virus—from coast to coast throughout our Republic. It's a false alarm designed to trigger national anxiety, energize the "useful idiots" among us, and swing the election in November, all to accelerate America's rush to national suicide by socialism. ..."

There is no need to increase anxiety among our fellow citizens using loaded words. As we emerge from this calamity, we have two possible outcomes: Either the domestic enemy uses this crisis to build Socialism, or Americans reject that false lure by receiving factual information, leading to greater freedom and prosperity than we have ever known.

As ORDINARY Coronavirus is prolific and ubiquitous, it will continue to torment humanity; hence its name will be heard frequently in the future. If we persist in calling today's dreaded new recombinant virus by the same name, it will only create unnecessary panic in future coronavirus outbreaks as our people will assume it is COVID-19 or some related strain.

Following traditional Virological nomenclature, I strongly advise that the most appropriate name for today's outbreak is Wuhan-Coronavirus, or Wuhan-COVID19, or simply Wuhan-virus. However, we would capitulate to calling it the Chinese-Virus as frequently does our Commander-in-Chief.

By not actively taking control of the narrative, we provide Administrations in the future to shut down the nation by the use of a not infrequently used word – Coronavirus. Pavlov's law will take effect, and American mass anxiety prevails, with Americans thinking COVID-19, not just a common cold.

Mr. Vice Presidet, please share these feelings as widely as possible to ensure we control this vital narrative.

Very Respectfully

Dr. William Scott Magill
Executive Director
USMC/Army Medical Corps
