SIX SIMPLE COVID-19 QUESTIONS OUR GOVERNMENT MUST ANSWER NOW

By: Dr. W. Scott Magill

Emerging from the nationwide confusion spawned by the pandemic panic are several simple, undeniable facts: We're all being lied to by government and media sources, the lies increase disease and death, government tyranny has increased and smothered individual liberty, and the liars have not been stopped or confronted to reveal their true motives and goals.

This is a colossal failure on every level of local, state and federal government, and our national news media. In fact, those institutions are the main perpetrators of the lies, confusion, and misery we've only just begun to endure.

Therefore, all information from any government authority or media source about the current pandemic should be considered worthless and false until the following six questions are entirely and plainly answered:

- 1. Hydroxychloroquine is cheap, safe, plentiful and at least 91 percent successful in curing COVID-19 when taken early in the disease process. Why is the federal government discouraging its use, thereby directly contributing to the avoidable deaths of tens of thousands of Americans?**
- 2. Why did the FDA direct doctors to prescribe Hydroxychloroquine only for hospitalized patients, by which time the drug's effectiveness is reduced, increasing the probability of death by delay?**
- 3. Why has Dr. Fauci not been removed from the Coronavirus Task Force for multiple conflicts of interest, not least of which is that he and his pharmaceutical partners stand to make huge profits from any expensive COVID-19 vaccine developed later, while they earn nothing from cheap hydroxychloroquine cure available right now?**
- 4. How was Dr. Fauci allowed to direct \$3.7 million of American taxpayer money to conduct illegal virus research at the Chinese government's bioweapons laboratory in Wuhan, from which this virus likely escaped?**
- 5. Communist China sickened the world and now, with Dr. Fauci's full involvement and personal benefit, will try to sell us the "cure" for the disease they caused—a vaccine of questionable efficacy and**

side effects for which they hold the patent. How is this not rewarding criminal behavior?

6. Since sound science and accurate data are essential for combatting any pandemic, why have Dr. Birx and the federal government directed doctors to falsify cause of death medical records to grossly inflate the COVID-19 death rate when the real cause is not known?

Again, until these six questions are answered, we must reject all COVID-19 information from government and media sources as suspect, worthless, and false. Doctors Fauci and Birx, along with several other now-discredited actors, have built a platform of deceit upon which President Trump and America's governors were directed to build their life-saving responses to the pandemic. They were misled into acting on that wrong information, to the great harm of our entire nation. They need not be deceived any longer.

Make no mistake, we are fighting two invisible "domestic enemies"—a virus and tyranny—the second of which is far more deadly to our society. Both are made visible by their effects. Both are made more lethal by disinformation. And both can be cured only by confronting them with the real facts, not by following orders from petty despots to "cower in place." That is not how Americans fight and conquer all enemies, foreign and domestic.

It is time for every American to reject the spirit of fear. It is time for us to revive the American Spirit of Liberty, and with it an old Revolutionary War-era motto: Live Free or Die! For it is far better to die as freemen standing up to tyrants than as subjects cowering on our knees before dishonest power-drunk bureaucrats.

"Those who expect to reap the blessings of freedom must, like men, undergo the fatigue of supporting it." - Thomas Paine
