NEWS FROM THE FRONT

14 Sept 2022

Fellow Champions of Liberty™,
C/C Veterans in Defense of Liberty®,

If you have ever wondered, "now what can I do," here is the answer! Encourage every qualified veteran you know to attend the next Champions of Liberty™ program (COL).

one to two recommendations of new COL members is what was suggested of current members at the D.C. meeting. However, don't feel bad if you welcome more into the fold.

After a long COVID-related hiatus our COL program is being relaunched! As D.C. is a bit unfriendly at the present, the relaunch will be at Liberty University Oct 9-14, in Lynchburg VA.

Time is of the essence - Now is the time we need you to stir up some new COL members. Below is an invitation to vets and associates to attend this class and we need your immediate assistance in doing so - use it productively, as you see fit.

COL is covering all expenses, except for travel. These are perilous days and we need to grow for obvious reasons - Champions of Liberty™.

VETERANS IN DEFENSE OF Liberty®
ANNOUNCES
THE GREATEST RESCUE MISSION IN HISTORY
By: CHAMPIONS OF LIBERTY™

We are Losing Our Constitution and Our Country

The United States of America came into existence unlike any other nation in history—through the ratification of a document drafted by representatives of “We the People.”

Brilliant solutions to the trials and errors of countless prior generations were embodied in that brief document. The rule of law replaced the rule of men. All citizens were equal before that law, regardless of their wealth or status. Rights would be protected but NOT granted by government, in recognition of their source as divine, not human. Government officials would serve by the will of the people, not by inheritance or privilege. Government powers were strictly limited to those listed (enumerated) in that document and further limited by dividing them among three separate-but-equal branches, each with power to check the other two.

Ratification was followed by two centuries of more trial and error in the continual struggle “to form a more perfect union” by living up to those principles. During that time, America—with all its flaws—became the freest, most prosperous on earth, and the greatest force for good of any nation in history.

But today, all of these many blessings we inherited—our Constitution, our individual liberty, our culture, our nation itself—are threatened with extinction as the rule of law is thrown aside for the rule of emotionalism.

That threat is not from any external force—no foreign power could ever destroy our nation—but entirely from within. If our constitutional republic is to survive, we must be willing to confront our opponents and utterly defeat them in the arena of ideas. Failure to do so is to be forever disgraced as the generation that betrayed its children and lost the nation.

For this reason, the Champions of Liberty[™] program has been instituted, equipping military veterans to fulfill their lifelong oath to “support and defend the Constitution of the United States against all enemies, foreign and domestic.”

After a careful screening process, Champions of Liberty undergo an intensive, one-week course in Lynchburg VA at Liberty University, on America’s great heritage, history, and founding principles of government. They will receive advanced training on defending and advancing these values in writing, speaking, debating, and media interviews. Participants will also be steeped in current major issues and threats to our constitutional republic and how to resist and defeat those opponents with civility and confidence. This intense initial training is followed by a national network fostering continual communication, education, discussion, debate, feedback, recruitment, and opportunities to advance our mission.

The training is uniquely tailored for veterans who wish to become leaders in returning Constitutional Fidelity within their community or teachers/professors; as well as those in media, community leadership, and other nation-shaping roles—anything that will empower Champions of Liberty to succeed in the greatest rescue mission in history, saving our nation!

The academic launch of this historical program, post-CoVid, where America’s veterans will learn the truth of our founding from our founding documents, will take place at Liberty University. With a strong understanding of the true America, these developing Champions of Liberty will move to the hands-on portion of learning to win. As Moton Blackwell once affirmed, “Being right, in

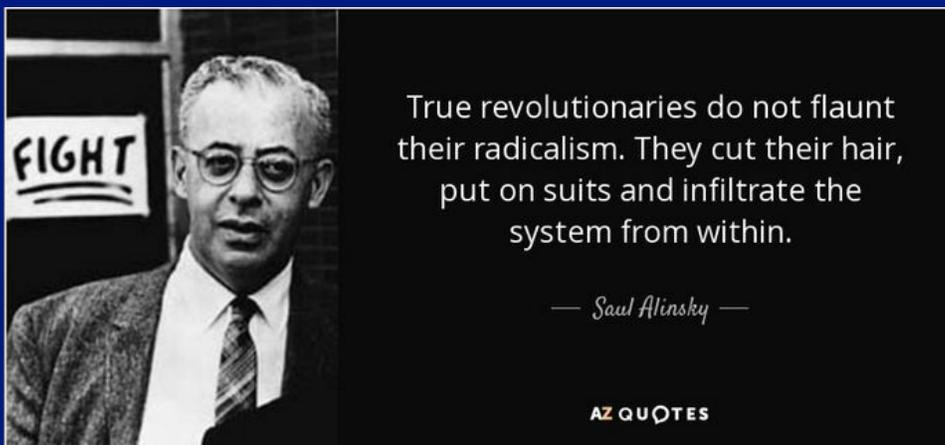

the sense of being correct, is not sufficient to win. ... You must learn how to win."

They will learn how to win under the tutelage of national experts. Our veterans will be equipped with the tools and training essential to fighting with the sword of truth and winning on today's Invisible battlefield of ideas for America's heart and soul.

America has the greatest military on earth--the finest warriors, most advanced equipment, and best training; so too are her veterans. As a result, they can and will achieve any mission they're given, and they will prevail in the greatest rescue mission in history - rescuing America by restoring our Constitutional Republic and founding values, by restoring Constitutional Fidelity. Defeat is not an option!

Most are aware of Alinsky's Rule for Radicals; however, few are aware of the eight necessary levels of Control attributed to him. Essentially everything the Progressive Left (Post Modernists) are doing today, plays to one, or more of these powers. All 8 are in play.

How to create a social state by Saul Alinsky:

"There are eight levels of control that must be obtained before you are able to create a social state.

1. **Healthcare** – Control healthcare and you control the people.
2. **Poverty** – Increase the Poverty level as high as possible; poor people are easier to control and will not fight back if you are providing everything for them to live.
3. **Debt** – Increase the debt to an unsustainable level. That

- way you are able to increase taxes, and this will produce more poverty.
4. **Gun Control** – Remove the ability to defend themselves from the government. That way you are able to create a police state.
 5. **Welfare** – Take control of every aspect of their lives (Food, Housing, and Income).
 6. **Education** – Take control of what people read and listen to – take control of what children learn in school.
 7. **Religion** – Remove the belief in God from the government and schools.
 8. **Class Welfare** – Divide the people into the wealthy and the poor. This will cause more disconnect, and it will be easier to take from (tax) the wealthy with the support of the poor."

"History does not entrust the care of freedom to the weak or timid."
